

A close-up portrait of a woman with dark, wavy hair and a radiant, glowing complexion. She is looking directly at the camera with a neutral expression. Her skin appears smooth and hydrated, with a natural-looking blush on her cheeks. She is wearing small gold hoop earrings. The background is a solid, light beige color.

dermalogica PRO **Exo Booster**

YOUNGER SKIN, YOUNGER YOU

Regenerative exosome therapy; clinically proven to help soften wrinkles, boost elasticity, and rejuvenate skin at a cellular level.

What is Exo Booster?

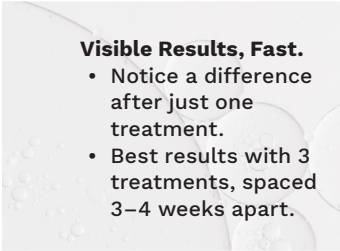

Exo Booster is a revolutionary skin treatment that uses exosomes—tiny natural messengers derived from stem cells—to supercharge your skin's ability to heal, regenerate and glow.

Why You'll Love It:

- Enhances treatment results.
- Boosts hydration.
- Stimulates collagen production.
- Reduces pigmentation and oxidative stress.
- Reduces inflammation.
- Strengthens the skin barrier and improves resilience.
- Accelerates recovery.

Perfect for:

- Ageing or dull skin.
- Post-laser or skin needling recovery.
- Pigmentation issues.
- Acne or sensitive skin.
- Dehydrated or compromised skin.

Visible Results, Fast.

- Notice a difference after just one treatment.
- Best results with 3 treatments, spaced 3–4 weeks apart.

Perfectly paired with:

- Microneedling
- Microdermabrasion
- Yellow LED Light Therapy
- Advanced Laser Skin Treatments (Flushing, Tightening, Pigment and Vascular)

21 days post treatment of
Exo Booster. Results may vary.
