

About Elizz

Elizz is powered by Saint Elizabeth, a national social enterprise that has been caring for Canadians since 1908. Together, we provide in-home care and virtual services to more than 20,000 people a day, delivering a total of 50 million visits in the past 10 years.

Elizz Private Services

In addition to Government-funded home care, Saint Elizabeth offers private home care services and support for family caregivers through Elizz. **(Elizz.com)**

Home care services may be covered by insurance providers

Individual services are available or multiple services can be combined depending on needs. Services can be provided through private insurance plans; on a fee-for-service basis. Saint Elizabeth is also a recognized provider through Veterans Affairs Canada.
