

ACCESSIBLE CARE HAS NEVER BEEN MORE CONVENIENT.

Your local pharmacist is an accessible healthcare professional. If your treatment requires a doctor, we can connect you to one with our **telemedicine services**.

Telemedicine Services

If you can't meet your family doctor, or do not have a family doctor at all, let us help you by giving you convenient access to a doctor through one of our telemedicine platforms.

How it works:

- 1) Visit guardian-pharmacy.ca/telemedicine
- 2) Click Book Now
- 3) Follow the steps to create an account
- 4) Book a consultation

After your consultation, the doctor can send a prescription to your Guardian pharmacist directly.

Your pharmacist will take it from there!
