

ACCESSIBLE CARE HAS NEVER BEEN MORE CONVENIENT.

Your pharmacist can prescribe for certain conditions
that used to require a doctor's visit.

**For more serious concerns, let us connect you to
a doctor via our telemedicine service.**

Telemedicine Services

If you can't meet your family doctor, or do not have a family doctor at all, let us help you by giving you convenient access to a doctor through one of our telemedicine platforms.

How it works:

- 1) Visit guardian-pharmacy.ca/telemedicine
- 2) Click Book Now
- 3) Follow the steps to create an account
- 4) Book a consultation

After your consultation, the doctor can send a prescription to your Guardian pharmacist directly.

Your pharmacist will take it from there!
