

The Medicine
Shoppe[®]
P H A R M A C Y

**ACCESSIBLE CARE HAS NEVER
BEEN MORE CONVENIENT.**

Your personal pharmacist can prescribe for certain conditions that used to require a doctor's visit.

**For more serious concerns, let us connect you to
a doctor via our Telemedicine service.**

Now Available

Telemedicine Services

If you can't meet your family doctor, or do not have a family doctor at all, let us help you by giving you convenient access to a doctor through our preferred partners telemedicine platform.

How it works:

- 1) Visit medicineshoppe.ca and click on the Telemedicine portal
- 2) Login
- 3) Select your preferred Medicine Shoppe pharmacy
- 4) Book a consultation with a doctor of your choice!

After your consultation your doctor can send a prescription to your pharmacist directly and discuss the best treatment options.

Your pharmacist will take it from there!
