

Saint Elizabeth

FOUNDATION

At Saint Elizabeth we strive to honour the human face of health care by empowering people to be knowledgeable about their health and participate actively in their care. Saint Elizabeth brings nursing, rehabilitation, supportive care services and education to individuals in the settings that give them the most comfort and strength. We help them live more active and productive lives, manage chronic disease, recover from acute illness and pass away with dignity and comfort.

When people need support to deliver home health care, relief from their caregiving duties, additional care because they have exhausted government-sponsored services, or greater access to community support systems, the Saint Elizabeth Foundation works to fill the gaps. Your support of the Foundation will help to ensure that families and individuals can access the right care, in the right environment.
